Feature rich, Mini-Cam's CCU210 Control Unit has an integral joystick for camera control, and an ergonomic soft-touch keypad. User friendly multi-function hot keys control an intuitive on-screen display, to enable quick and accurate navigation of the numerous features, which all come as standard on this brain of the Mini-Reel system. Mini-Cam's *Easy-Fit* case design, means attaching and removing the control unit is quick, easy and requires no tools. Simply lift the control unit onto the Mini-Reel frame, connect with the supplied link lead and you're ready to start your next inspection!

Miniature Axial Camera

Expertly engineered in stainless steel, this precision camera (shown below actual size) offers maximum flexibility for use in small diameter pipe applications. The generous 390mm length, in-built springiness and four ultra-bright LED's enables unlimited adaptability for those hard to navigate, awkward situations.

File Share

Quick and simple to use, with just a 3-step menu selection, users can instantly share PDF reports, images and footage via email, or upload WinCan Reports

to WinCan Web for secure, immediate, team-wide access online. All that is required to start sharing is a 3G or 4G Wi-Fi connection. Users can easily create the hot-spot using their smart phone.

Please Note: Control Unit CCU210 is sold separately and not included with Mini-Reel CAM030MR

SOLOPro⁺ Mini-Reel

30 Metre Rod
Semi-rigid with a tough, durable outer sheath. Manufactured to perform reliably in awkward situations.

Easy-fit Control Unit
The easy-fit, no tools required control unit is exclusively compatible with Mini-Reel.

Carry Handle
The in-built stabiliser leg, doubles as a carry handle for comfort and portability.

Sturdy Frame
Heavy duty and durable, yet lightweight, the powder coated tubular basket frame can be used in a vertical or horizontal position.

Actual size

Miniature Camera

Robust construction, precision engineered in stainless steel and featuring 4 ultra-bright LEDs. For transportation, the flexible camera spring is neatly stored inside the basket and secured with the in-built fastener.
