

SZSW2186

Multi-function working lamp

- Suitable for outdoor emergency lighting, search and rescue, security, accident site, work site inspection, maintenance, vehicle backup lighting, emergency lighting, etc.

■ Product Parameters

Wattage: 3W, 5W

Light source: LED (CREE)

Battery type: Lithium battery

Voltage: 3.7V

Battery capacity: 2500mAh(M1)、5000mAh(M2)

Cycle life: 1000 cycle

Ingress protection: IP66

Life spend: ≥100000h

Product function: Working light, Strong light, Red and Blue warning light

Working time: Working light 24h, Strong light 12h (3W)

Extra long mode 95h, Strong light 9h (3W)

Working light 40h, Strong light 19h (5W)

Extra long mode 170h, Strong light 13h (5W)

Charging voltage: AC100~240V, 50-60Hz

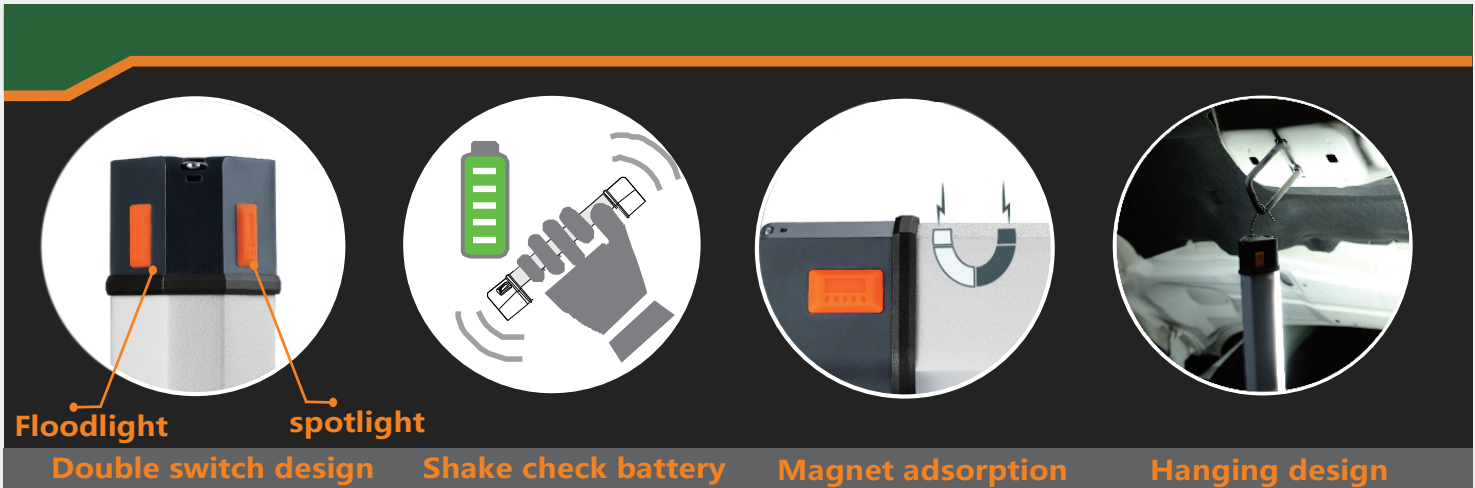

Charging Time: ≤4h (3W) 、≤7h (5W)

Ambient temperature: -20°C ~ +40°C

weight: 195g (3W) 、270g (5W)

SZSW2186

Multi-function working lamp

1. Other performance features

- High light efficiency, imported Cree lightsource, life up to 100,000 hours
- With high energy and no memory lithium battery, the self-discharge rate is low and 90% of the electricity is still available after being placed for more than one year
- Heat dissipation parts use high thermal conductivity aviation aluminum, surface is deeply anodized, long-term use does not deteriorate

2.Dimension drawing
